

Environmental Policy

The principle activity of Beechwood Property Services Ltd is cleaning, maintenance, and associated works and operates this function throughout the UK.

Given the growing importance of environmental issues both within our sector and as a primary objective for the government, Beechwood Property Services Ltd firmly believe that a conscious environmental approach to its activities makes good business sense. The company seeks to benefit the local environment whilst minimising the negative environmental consequences of its activities.

In order to achieve our overall environmental aims we will:-

- Ensure that objectives and targets are set and reviewed.
- Communicate this policy to all persons working on behalf of the organisation.
- Make this policy available to the public.
- Comply with all relevant environmental legislation and regulations.
- Prevent pollution arising from our operations.
- Work to achieve continual improvement of our environmental performance.

In particular we shall:-

- Reduce, where possible, the use of materials and products from non-sustainable sources.
- Review the environmental impact of our activities at least once a year.
- Gain respect from the local communities by ensuring our sites are clean and tidy, and that dust and noise are kept to a minimum.
- Share 'Best Practice' with customers, partners, subcontractors, suppliers and the wider community
- Use and maintain an efficient fleet of company vehicles which have a reduced impact on the environment.
- Promote environmental awareness throughout the company to ensure working practices are carried out in accordance with this policy.
- Use products which wherever practicable have the least impact on the environment from our undertakings.

Date: 2 February 2021
